

# White Label - Private Label

## What if I order 500 member count for a year and sell them in the first month what happens?

Once you exceed your 500 members your account rep will reach out to you so you can purchase more member ID's to your member bank. Keep in mind, we will not stop you from bringing in members even if you sell them within the first week. Your rep will reach out to you and help you place an order to add more members ID's to your bank.
